To Whom It May Concern,

I am writing to express my strong support for the proposed sewer expansion project for the Village of Williamsburg on Tollgate Road. As a resident and councilmember I believe that investing in this critical infrastructure is essential for the continued growth and well-being of our area.

Sewer systems play a vital role in safeguarding public health, protecting our environment, and promoting economic development. By expanding our sewer capacity, we can ensure that our community remains a desirable place to live, work, and invest in for years to come.

Furthermore, upgrading our sewer infrastructure will alleviate existing strain on the system and accommodate future population growth and development. This expansion is not only necessary but also proactive in addressing potential challenges before they escalate into more significant issues.

I commend the efforts of village leaders and their dedication to improving our community's infrastructure. Their thorough planning and commitment to excellence are evident in the proposed expansion plan, which I believe will benefit Williamsburg greatly in the future.

Sincerely,

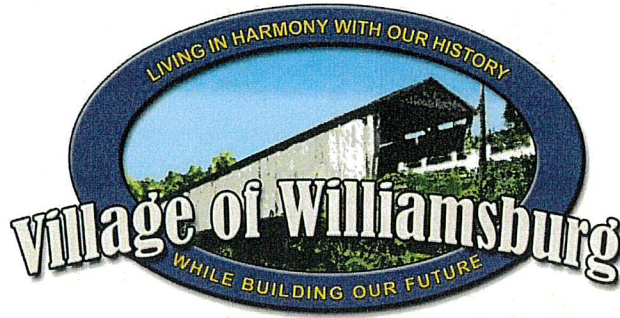

George Seip  
Councilman
